-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Applicant's election of Group II, claims 9, 13, and 14 in the reply filed on 5/24/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Objections

2. Claim 9 is objected to because of the informalities. It is advised to change a phrase "coating a 40-70 lb. base paper substrate with 4-14 lbs. of polyethylene" to "coating a paper substrate having a basis weight of 40-70 lbs/3,000 ft² with 4-14 lbs/3,000 ft² of polyethylene" for clearer understanding.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9, line 2, meaning of a phrase "extruding or coating" is confusing because "coating" can be performed by any conventional techniques including "extruding". Therefore, the phrase implies that "extruding" does not result in "coating" a substrate.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this

Art Unit: 1762

subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 9, 13-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Knauf (US 20040157025).

Knauf teaches a method of making a poly-coated paper ream wrapper comprising applying a P.E.I. layer 20 to one surface 18 of a paper substrate 12, such as Kraft paper with a basis weight of 20 lbs/3,000 ft² to 80 lbs/3,000 ft² (See P23), and applying a low density polyethylene (LDPE) layer 16 to the second surface 14, and applying a layer of varnish 17 on top of the LDPE layer (See Fig. 3; See P17-P19). The polyethylene layer is applied in an amount of 1 lbs/3,000 ft² to 20 lbs/3,000 ft² (See P25) and is used to create a seal with the application of heat. Areas of the inner surface in proximity to a heat source during the heat sealing process and where a seal will not be beneficial (claimed specific zones) are covered with a heat shield, such as a varnish, to avoid damage to the paper. See Abstract.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elena Tsoy whose telephone number is 571-272-1429. The examiner can normally be reached on Monday-Thursday, 9:00AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks can be reached on 571-272-1423. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
